

# The Swiss Polar Institute and your research

**Prof. Dr. Detlef Günther**  
Vice President of Research  
25 August 2022

# Research in the polar and high-altitude regions

- It's not only for climate researchers!
- For example:
  - the recently funded flagship projects
  - **From ice to microorganisms and humans:** Toward an interdisciplinary understanding of climate change impacts on the Third Pole
  - **Greenlandic Fjord ecosystems in a changing climate:** Socio-cultural and environmental interactions

# Know about the possibilities

- Large expeditions
  - Field and summer schools
  - Various project funding schemes
  - Etc.
- 
- Most recently in 2021:  
Arctic Century Expedition  
The expedition in the western Arctic focused on important aspects of the atmosphere, cryosphere, marine and terrestrial environment.
