

## Field and summer schools for master / doctoral students and ECS

The SPI contributes towards the costs (e.g. registration fee, travel costs) for Swiss students selected to participate in field and summer schools dealing with polar / high altitude / climate related research topics. Below is a shortlist of programmes SPI has selected, based on their quality and international reputation and previous participation of SPI funded students.

Course	Organiser	Place	Discipline
<a href="#">International Summer School in Glaciology</a>	University of Alaska	McCarthy, Alaska, USA	Glaciology
<a href="#">Karthaus Summer School in Glaciology</a>	IMAU, Utrecht University	Italy	Glaciology
<a href="#">Juneau Icefield Research Program</a>	Independent / Various	Alaska, USA	Glaciology, Geology, Climate
<a href="#">Potsdam Summer School</a>	Independent / Various	Potsdam, DE	Earth System Sciences
<a href="#">Swiss Climate Summer School</a>	University of Bern	Grindelwald, CH	Climate, exact topic changes annually
<a href="#">Geochronology Swiss Summer School</a>	University of Zurich	Klosters, CH	Dating Techniques in Environmental Research
<a href="#">SEAmester</a>	University of Cape Town	Southern Ocean, SA	Oceanography
<a href="#">University of Svalbard courses</a>	University of Svalbard	Svalbard, NO	Various
<a href="#">Ice Core Analysis Techniques (ICAT) PhD school</a>	University of Copenhagen	Copenhagen, DK	Ice core analysis data application
<a href="#">EGU Snow Science Winter School</a>	EGU / WSL / FMI / CNRS	Sodankylä, FL	Cryoscience, Snow

Please note that the above list is not exhaustive and we encourage students to check the excellent resources for training opportunities and summer schools available on the following websites:
