

## Field and summer schools for master / doctoral students and ECS

The SPI contributes towards the costs (registration fee, travel costs) for Swiss students selected to participate in field and summer schools dealing with polar / high altitude / climate research topics. Below is a shortlist of programmes SPI has selected, based on their quality and international reputation and previous participation of SPI funded students.

Due to the current situation concerning COVID-19, most programs have been cancelled for 2020 and it is unclear if and when they will run in 2021. If you are interested in applying for any of the below programs, we recommend to check their websites (link embedded in name) regularly.
