

Swiss Committee for Polar and High Altitude Research (SKPH)

Swiss Committee for Polar and High Altitude Research (SKPH)

What it is

- Your representation for polar and high alpine research nationally (SPI, Federal Administration, Swiss Academies) and internationally (SCAR, IASC, Arctic Council, European Polar Board)
- Your „lobby group“ for polar and high altitude research
- Promoter of polar science in Switzerland
- Promoter of Early Career Scientists in polar and high altitude research (Prix De Quervain)
- a group of 17 senior and junior experts representing the interests of all science areas related to polar and high altitude research

What it isn't

- A funding agency for polar and high altitude research
- A project performing science in polar or high altitude regions
- A part of the SPI 😊

Prix De Quervain 2020 on polar research

Awarded to Lea Pfäffli by
the SKPH together with
the
Lungfrauenkommission

Das Wissen, das aus der Kälte kam.
Assoziationen der Arktis um 1912

Abhandlung zur Erlangung des Titels
DOKTORIN DER WISSENSCHAFTEN der ETH ZÜRICH
(Dr. sc. ETH Zürich)

vorgelegt von
Lea Pfäffli

Award ceremony and scientific presentation by Lea postponed to the Swiss Polar Day in Spring 2021!

Prix De Quervain 2021 on high altitude research

The Prix De Quervain will be awarded again in 2021 in the field of high altitude research by the Jungfrauochkommission, the SKPH and the Swiss Foundation for Alpine Research

Official nomination guidelines will be distributed in due time
Deadline for nominations will be in May 2021
